

Can we make either the freshet flow requirement?

- 2014 flows were not met.
 - Powerhouse operational for less than 6 months.
 - No days could have met the 750 cfs flow requirement between December 2013 and July 31, 2014.
 - April-July inflows were sufficient to meet the 12,000 acre foot requirement for 14 days.
 - May be possible to meet the 12,000 acre foot for 14 days during a short window in June/July.
